INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR § 1.97(c)

Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

As a means of complying with the duty of disclosure set forth in 37 CFR § 1.53 and in keeping with the guidelines of 37 CFR 1.98, Applicants hereby submit information thought to be relevant to the examination of the above-identified application, Also submitted herewith is a completed form PTO-1449.

This information was cited in a European Search Report dated October 29, 2003, and it is hereby certified that this disclosure is being made within three months of that date.

Applicants, through their undersigned attorney, hereby certify that, unless submitted herewith, no English language translation is presently available to those individuals identified in 37 CFR § 1.56(c) for any non-English language references(s) cited.

United States Patent 5,826,181, Reed, relates to a frequency selective noise reduction wide-band cellular radio receiver for a cellular base station that is capable of clearly receiving strong signals generated from cellular phones located close to the base station as well as weak signals generated from cellular phones located at the edge of the base station's range of reception.

United States Patent 4,859,958, Myers, relates to an FM radio signal receiving system for receiving FM signals at a variety of amplitudes while maintaining a constant amplitude of the reconstructed signal.

United States Patent 5,488,632, Mason et al., relates to a system for transmitting and receiving radio signals between used UHF television frequencies while reducing the interference caused by the UHF television frequencies.

German Patent Application DE 4220296 A, Blaupunkt, relates to a system for transmitting and receiving radio signals while compensating for interference caused by clocked

electronic equipment without reducing signal strength. 7217/64564

Respectfully submitted,

COOPER & DUNHAM LLP

A handwritten signature in black ink, appearing to read "Jay H. Maioli". The signature is fluid and cursive, with the first name "Jay" being the most prominent.
